

Tally Mark Story Problem

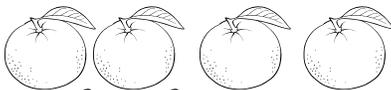

Read the story below and use tally marks to help solve the problem.

1. The Fruit Basket

Tom has a basket of fruit. He counted the apples, oranges, and bananas.

3 apples 

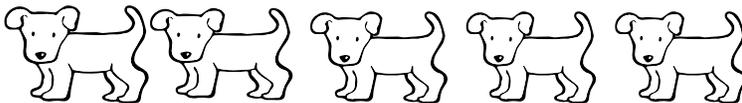

4 oranges 

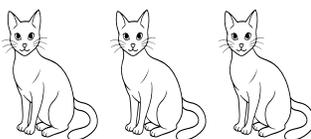

2 bananas 

How many fruits does Tom have in total?

2. The Pet Store

At the pet store, there are different animals for sale. The store clerk made tally marks to keep track of how many of each animal there were.

5 dogs 

3 cats 

4 rabbits 

How many animals are at the pet store?
