

American Sign Language (ASL)

“SODA”

To sign "soda" in ASL:

1. Form your non-dominant hand into an "S" (fist) resting on its pinkie side.

2. With your dominant hand in a "5" shape, bend the middle finger and tap the fist's crevice (like inserting a straw).

3. Flatten your hand and tap the top of the fist (like sealing a lid).
